

Eastman®

Hornet MODEL HRNT

The **Hornet** is a powerful, rechargeable, professional grade cordless power tool. Multiple speeds on the high torque motor give you complete control when cutting through heavy, industrial-type materials. All in a package that weighs only 4 lbs (1.8 kg)!

Balance and maneuverability allows the Hornet to buzz through your workload, without binding or tearing. No matter the industry, if cutting material by hand is part of your operation, the Hornet will become a staple in your toolbox.

Made in USA, 6 Month Warranty

For over a century, the Eastman Machine Company has designed and manufactured cutting machines for professionals whose livelihood depends on the quality of their equipment.

Quality Assurance

Reach out to our team and request a test cut of your material. An experienced Eastman representative will provide a detailed recommendation based on your application.
