

This technical data refers to the following Lighthouse products:

**Recycled White Self-Adhesive Paper**

**Description**

Manufactured using 100% recycled fibres, this white semi-gloss self-adhesive paper provides a sustainable solution compared with conventional self-adhesive paper products. The water-based adhesive, offers both high initial tack and ultimate adhesion to an array of substrates. Ideal for box/carton labelling and barcode identification.

**Technical Information**

Thickness	Film Liner	68 microns 130 gsm
Service Temperature		-20°C to 80°C
Minimum Application Temperature		0°C
Adhesion	Initial tack Ultimate adhesion	High High
Compliance		RoHS 2 REACH
Shelf Life (When stored at 15-20°C & 50-60% relative humidity)		1 years
Compatible Ribbons for Printing		CPMWR40 & CPMWR40-RC

**IMPORTANT NOTICE**

All Lighthouse products are subject to careful quality control throughout the manufacturing process and are warranted to be of merchantable quality and free from manufacturing defects.

Published information concerning Lighthouse products is based on research, which the Company believes to be reliable, although such information does not constitute a warranty.

Because of the variety of uses of Lighthouse products and the continuing development of new applications, the purchaser should carefully consider the suitability and performance of the product for each intended use. We recommend the purchaser conducts their own testing to determine the suitability for their required application. The purchaser shall assume all risks regarding such use. The seller shall not be liable for damages in excess of the purchase price of the product nor for incidental or consequential damages.

All specifications are subject to change without prior notice.
