

TAGSON®

MiniStar

Reduce costs

Simplify workflow

Single-needle pneumatic tagging machine with foot pedal

Perfect solution for tagging socks, mats, pads, towels, microfibre, etc.

- Portable & automated
- Needs only air supply
- Energy and cost saving
- With Extra Long Fine Needle
- For all kinds of materials
- For thicknesses 7 - 40 mm

Small machine that fits every production

Increase productivity

Reliability, productivity, speed, ergonomics, and accuracy are the main attributes of the new pneumatic automated portable tagging machine. **MINI STAR** is irreplaceable for all **socks, doormat, towels, microfibre**, etc., for manufacturers who want to simplify workflow, increase productivity, and reduce the costs of packaging. Thanks to its compact design and quick activation, the Portable Automated Single-Needle Tagging machine **MINI STAR** easily fits all kinds of packaging lines.

Portable machine powered by Avery Dennison®

Each machine is made with the highest precision and tailored to the end-consumer requirements. The heart of the machine has been powered by Avery Dennison SPU module which ensures the highest standard of industry quality and reliability. The base of the machine is carefully designed with superb materials such as valves, switches, handmade axes, aluminum rack and stand, PTFE holders, etc.

→ **SPEED**

1.5 seconds per product (1 cycle)

→ **EUROPEAN QUALITY**

MINI STAR is designed by highly skilled engineers and manufactured from premium materials in EU.

→ **THICKNESS RANGE**

The machine has the Extra Long Fine Needle which ensures tagging thickness from 7 mm to 40 mm.

→ **UNIVERSAL**

The machine is made for tagging light or heavy materials, a wide range of products, and it is a perfect solution for small and medium-sized manufacturers.

→ **FOOT PEDAL: increase productivity by 20%**

This machine is standardly equipped with a foot pedal which **increases productivity for an extra 20% of workflow**. The foot pedal keeps an operator's hands free for loading and unloading the product. Two safety finger switches are optional.

→ **LASER MARKER (optional)**

For precise tagging, an increased productivity by 10%

→ **QR code**

Each machine is equipped with a QR code where you find Manual Instructions & Trouble Shooting information for fast onsite maintenance.

4x faster

Save time & money with automated tagging machine.

Tagging quantity done in 1 hour:

Manually
